## COUNTING RHYTHMS

### Practice makes PERFECT!

For each box draw the rhythms indicated above the dividing line. Then write the correct counts for each measure above the notes. Remember to make each measure add up to the top number of the time signature. Ask your teacher for help and have them check your answers when you've finished. Also, try counting and clapping each group aloud.

2 |  
4 | One half note | Two quarter notes | Four eighth notes

3 |  
4 | Three quarter notes | One half note and one quarter note | Six eighth notes

| One quarter note and two eighth notes | Two eighth notes and one quarter rest | One half note

| Three quarter notes | One quarter note, one quarter rest, two eighth notes | One dotted half note

### Now try making up your own rhythms!

4 |  
4 | Four quarter notes | Two half notes | One dotted half note and a quarter rest

2 |  
4 |

| Four eighth notes, one half note | Quarter note, two eighths, one half note | One quarter note, two eighth notes, two quarter notes

3 |  
4 |

| Two eighth notes, one quarter rest, one quarter note, two eighth notes | One whole note | One quarter note, one quarter rest, half note

4 |  
4 |

| Two groups of four sixteenth notes, two eighth notes, one quarter note
